Eco-creative Furnishings

At Numi, the creative minds of our Tea'm of dedicated employees are impressive. Like a Chai stall in India or a Tea house in China, our Oakland headquarters is a hub overflowing with fresh ideas, music, poetry, laughter, and art. To capture the artistic spirit evoked by our muse, we hold creative workshops for employees and friends. For the Tea Garden, we held a staff workshop where small groups worked on mosaic tables (as seen below) made from scrap tiles. Numi's commitment to sustainability is also reflected in the conference table made from reclaimed driftwood & pallets, made by our Creative Coordinator, Matt Reynoso.
