From the Artist & Alchemist

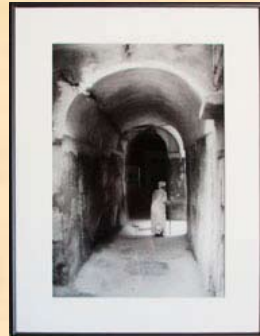

We are so happy to have opened our first Tea House. We never thought this day would arrive and have put so much of our hearts & souls into its creation. We think you will love the atmosphere, the fountains, the lush curtains and paintings as well as our wonderful variety of teas and light foods. Come share in our Creativitea!

Eco-creative Furnishings

Mosaic table made of reclaimed tiles

The creative minds of the Numi Tea'm are impressive. Like a Chai stall in India or a Tea house in China, our Oakland headquarters is a hub of fresh ideas, music, poetry, laughter and art. To capture the artistic spirit evoked by our muse, we hold creative workshops for employees and friends. For the Tea Garden, we held a staff workshop where small groups worked on mosaic tables (as seen above) made of scrap tiles. Numi's commitment to sustainability is also reflected in a conference table made from reclaimed driftwood and pallets, made Creative Coordinator, Matt Reynoso.
